

It was beautiful and cooler day. Caterpillars were exploring and gaining confidence in the environment. They were interacting and bonding with each other.

Craft

Celebrating and embracing other cultures into children's learning is what we promote the most. This week we have been celebrating Chinese New Year. Caterpillars have been doing Chinese fire crackers which Ms I would display it in the room later. The children glued small shining paper on red paper then rolled it. All the children showed great interest in the experience.

Learning skills: Learning about different cultures, creativity and coordination

Dancing with friends

Ka and Jo started dancing so educator put the music on. And the rest of the group joined them and they all danced for a long period of time.

Learning skills: flexibility, balancing, and creativity.

Sand play

Ma and Jo spent time filling and emptying the bowls in the sand pit area. *Mis T, Or, Jo and Al* read story books together in the outdoor play area.

Learning skills: Filling and emptying and concentration

18- 2 -20

Group time

We started the group time by singing and playing musical instruments. After that, *Ms I* explained to the children why during Chinese New Year people gave red pockets to their loved ones and what was normally inside the pocket.

Lastly, Caterpillars watched dragon and lion dance on the computer.
