

### Construction:

Ja, Ns, Nc, Or and Jj constructed three different models that represent their critical thinking. Ja and Ns created a house: Or and Ns created a jungle; Jj created a Robot with Legos. They sat and spent 10-15 minutes creating their models. They explored and discovered their problem-solving skills; used fine motor skills and imagination to finish their product.

Learning area: fine motor skills, eye-hand co-ordination, expression symbolic thinking

### Our creative Butterflies:

Our pre-schoolers are very creative. Oj and En created cherry blossom trees with soft paper, glue and yarn. They have shown their well-developed fine motor skills and creative skill through this activity.

Learning area: fine motor skills, eye-hand co-ordination, creative thinking

**Group time:**

We have done some exercises during the group time. We have also practiced our phonic sounds.

**Learning area: social skill, gross motor , literacy**
