

Construction:

ZG, JZ and W constructed three different models that represent their critical thinking. ZG created a car: JZ and W created a transformer with Mobilos. They sat and spent 10-15 minutes to create their models. They explored and discovered problem solving skills; used fine motor skills and imagination to finish their product.

Learning area: fine motor skills, eye-hand co-ordination, expression symbolic thinking

Our creative Butterflies:

Our pre-schoolers are very creative. Sa, Oj, Ja, La, Nc and ZG made Chinese drums using paper plates, glue and paper. They have shown their well-developed fine motor skills and creative skill through this activity.

Learning area: fine motor skills, eye-hand co-ordination, creative thinking
