

### Craft activity

We have started focusing on season theme which is an extended activity of 'Chinese New Year theme'. The pre-schoolers made collages using natural materials, leaves, twigs, flowers and glue. Natural resources encourage children to observe closely and use all their senses.

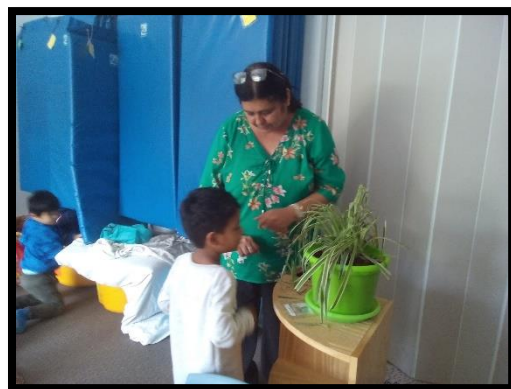

Learning area: fine motor skills, eye-hand co-ordination, expressive language

### Mothers Love super market

Today pre-schoolers had an opportunity to set up a super market and then they used this set up to go 'shopping'. In the 'super market' pretend play, they acted different roles: a cash-registrar, a customer or a shelf-organiser. During the play, pre-schoolers took turns, shared and co-operate others.

Learning area: literacy, expressive language

### **Exploring the life cycle of a butterfly:**

**Pre- schoolers noticed a cocoon in the indoor pot plant in the science corner. They were encouraged to examine the cocoon using a magnifying glass. The educator integrated this 'cocoon' idea into group time. The educator extended this idea by showing and discussing 'the life cycle of a butterfly' and other features.**

**Learning areas: Science, literacy**
