

The weather is changing so please make sure your child is wearing warm clothes in the morning. New children are slowly settling well and are exploring the environment with confidence.

Craft

Caterpillars are having great time participating and enjoying different craft experiences. Children learnt colours, shapes by taking part in free craft experience. Connective sand was a great experience that caterpillars enjoyed very much. Jo, Ka and Sh scooped sand with their hands to fill their cups, pressed the sand with their fingers then tipped the cup over to make sand castle. All the children enjoyed it so much they repeated the process over and over again. They are learning to engage in and contribute to shared play experiences

Learning skills; colours, shapes, fine motor, concentration, and coordination, sharing and social skills.

Pipe construction

Children explored the environment and took their learning to next level. Initially, Ka and Jo made wands with pipes and pretended to be superheros. They also discovered that they could use it as binoculars to explore the environment. The children are using play to investigate, and explore new ideas

Learning skills; exploration, discoveries and concentration.

Group time; Ms T and the caterpillars are learning and discussing about identity. It will help the children to learn about themselves, family and the environment. Children also singing and playing musical instruments during group time.

PLEASE BRING A FAMILY PHOTO TO ENABLE US TO EXTEND THE LEARNING OF INCLUDING FAMILY AS A WHOLE.
