

18-3-22

Caterpillars and butterflies stayed together as one group today. Caterpillars had a great time participating in hand printing with the butterflies. *Or and Ma* sat down and followed the instruction from the educators to finish the experience.

They chose a paint colour of their choice then educator painted the paint in their hand and then they printed it on a paper.

Yesterday *Ms Sh* made Roti (Indian bread) with both caterpillars and butterflies. *Ma* had a great time rolled the dough.

Learning skills: able to follow instruction, concentration, and fine motor
