

18-4-12

Bright and sunny day today, caterpillars came inside early due to the heat.

Craft

Caterpillars are having great fun making a portrait of themselves. Educators provided body part resources and encourage the children to use their imagination and thinking strategies to put together to make self-portrait. They were able to arrange the parts orderly.

Learning skills; sorting, putting parts together to create identity, sense of sense, confidence, concentration and fine motor.

Construction and puzzle

The children are showing interest in puzzles as *Ka and Or* tried to fix the body puzzle. Also, they sat together on the mat to construct Lego. Each child had his/her own Lego board to build.

Learning skills; cooperation, cognitive development, concentration, and coordination.

Group time Caterpillars and butterflies had music section this morning. They listened and dance to music.
