

Sand play

Pre-schoolers are very interested in exploring sand play. Through the sand play, they explore different concepts such as empty-full, big-small, short-long and high-low. In the play, they also learn to share, co-operate, and take turns. Their engagement in their play makes them confident to deal with issues in their play and find solutions by negotiating.

Learning area: social skills, fine motor skills, communication

Making innovative creations through collage

The children used craft materials and natural materials (leaves and twigs) to make wonderful creations like monster, leaf photo frame etc. Throughout the activities, they are exploring and developing a range of skills and processes such as problem solving, inquiry, experimentation, hypothesising, researching and investigating.

Learning Areas: imagination, creativity, pre- writing skills, recognising and writing numbers
