

18-5-17

The Caterpillars engaged in an exciting experience today. Climbing and exploring 'A' frame. All the children were confident and eager to climb to practise their balance and coordination skills. They used their alternative feet to climb and held onto the frame firmly to maintain their balance and then climb down.

*Ka, Or and Ma* expressed interest in dolls this morning. They pretended to go shopping with their babies and baskets. They cooperated, assisted each other on their shopping trip. Learning skills; pretend play, social play, language cooperation.

Cutting was a children's idea. *Or* asked Ms Theresa to have cutting experience. They all enjoyed the experience at this stage. They had fun using the scissors to snip at the edge of the paper.
