Reconciliation Week:

We celebrated our reconciliation week. During the week, all the children and educators participated in different activities such as story, painting, drama, and music. The educator started with a dramatization of invasion story. Then children made their own story and shared with others. We organised a day to celebrate the reconciliation week. The event carried by reciting the acknowledgment and followed by a story, hoisting national flags, national Anthem in Aboriginal and English language, and Aboriginal songs. This was a great opportunity for the both educators and children to pay their respect, learn from past and share knowledge with others. Children learnt about history and made comments such as “we say sorry to them” that reflects their understanding of invasion history.

Learning Areas: fine motor skills, problem solving, matching skills, communication skills, imagination, memory skills, literacy and expressive language skills
