

Mother's Day celebration

18-5-10

Parents, children and educators had a great and fun time celebrating the Mother's Day. Children rehearsed singing and dancing for their mums for weeks before the day. On the day, the children did what love best. They performed by singing and dancing for their mums.

After the children performance, a Dental Therapist came and talked to the parents about the children dental hygiene. Then, the children presented happy Mother's Day cake to their mums which *Miss S* and the children baked the day before.

Lastly, everyone enjoyed the healthy yummy afternoon tea.
