

18-6-19

Playdough was what Caterpillars enjoyed engaging today. They shared and played cooperatively with each other. They rolled the playdough flat with rolling pin. Then used assorted cutters to cut different shapes out of the playdough. *Jo* cut dinosaur, *Ka* butterfly and *Ma* chicken. But *Or* and *Al* just used their palm and fingers to play with the dough.

The children also showed great interest in books today. They choose books themselves sat down and looked at the pictures. After that, *Ms T* read them a book called "kind" where all the children payed great attention to the book being read to them.
