

18-6-26

Cold but nice sunny day. Caterpillars had a combined group in the morning before they separated. In the caterpillar's room, children sat together at the table and engaged with people blocks. After that, they engaged in craft where all the children had a choice to paint fire truck or fire man. All chose fire truck and painted it with red and yellow paint.

They all went down as a group and engaged in sand play. Sw filled her muffin tray and placed it in the oven. Or filled whole bucket with sand, emptied it and filled it again and Jo just filled the cups with spade.

Na sorted small pieces of Lego blocks and built a long tower. He also climbed the balance board and walked on it with confidence.

Learning skills; Creativity, coordination, concentration, social, balancing and sorting.
