Craft

Today the Toddlers and the Pre-schoolers played as a combined group. Caterpillars joined butterflies group in hand dot painting to celebrate re- conciliation week. The children carefully dot painted the hand with different colour paint.

Ma and Ka used paddle pop sticks and glue to create their school. They used a lot of skills like planning, creativity, concentration fine motor and organisation to complete their work.

Physical

Educators are providing a range of active activities for caterpillar's physical wellbeing. Exercise was one of the experience *Ms T* introduced to the caterpillars yesterday. The children showed great interest and followed the moves and the steps *Ms T* showed them.

Group time

Educator and the caterpillars looked at the food chart and discussed the children's favourite food, vegetables and fruits. They were able to point to their favourite food from the chart. E.g. *Ma* favourite food was pasta, *Or and Ka* rice.
