Caterpillar's engaged in various experiences in the environment. They bonded and supported each other in their play.

Caterpillars love craft! This morning they all went and sat at the craft table and waited for the painting experience. *Ka, Or, Jm and Sw* all participated in the painting experience.

Or and Ka had a great time together climbing and walking on the stepping stones. *Sw and Jm* also spent time in the sand pit scooping the sand with a container. *Jm* placed her container in the microwave and closed the doll.

Learning skills; developing friendship, coordination, concentration, balancing, creativity, fine motor skills.
