

Excursion to Farm

Date: 10/10/2018

On 10th October, the children went to Camsley Hill farm excursion. They followed the rules that they had been learning before the excursion as they stayed close to the teacher and remembered to be kind to the animals. They enjoyed patting gently the farm animal and feeding them.

They had opportunity to milk the cow after washing their hands. They also remembered to wash their hands after patting or touching the animals.

Most of children said that they liked the sheep shearing show and the dog show. They had collected some wool from the shearer along with the educator to bring to the centre.

Apart from the farm animals, the children also saw the fox which was enclosed in the cage, patted the snake, koala and saw some kangaroos and wombat.

The parents and children enjoyed eating the food together. Overall, the farm excursion was an enjoyable and learning experience for children where they had opportunity to see and touch the real animals. Some children were so excited that they were asking whether these animals were real or toys. The educator explained that they were real animals as they moved and ate.
