

18-10-24

Caterpillars are learning and displaying confidence in the environment. They always busy engaging and exploring the experiences.

Construction, puzzle and sensory.

Jo searched through the Lego box and found a car frame. He stacked wheels underneath to become a car and then moved it around in the environment.

Caterpillars are enjoying engaging with puzzles at the moment. As the picture shows, *M, E and Ja* were busy concentrating solving the puzzles in the caterpillar's room.

Ma and M broaden their understanding on sorting the shapes. They were playful and responded positively to each other to building up friendship. They placed the shapes appropriately in its hole.

Learning Skills; Creativity, concentration, coordination understanding, and fine motor.

Sand play

Sand play is another experience caterpillar's displays interest in. They all love filling the bucks and emptying them.

M is showing interest in dolls, she picked up a doll cuddle and felt it by touching. *Ma* climbed the cube and sat on it.

Learning skills; Balance, sensory, and empathy.

Group time

Caterpillars are learning names of animals and the sound they make.
